

Package: colt (via r-universe)

September 9, 2024

Type Package

Title Command-Line Color Themes

Version 0.1.1.9000

Maintainer Stefan Fleck <stefan.b.fleck@gmail.com>

Description A collection of command-line color styles based on the 'crayon' package. 'Colt' styles are defined in themes that can easily be switched, to ensure command line output looks nice on dark as well as light consoles.

License MIT + file LICENSE

Imports crayon (>= 1.3.4)

Encoding UTF-8

LazyData true

RoxygenNote 6.1.0

Roxygen list(markdown = TRUE)

Suggests knitr, rmarkdown, rstudioapi

Depends R (>= 2.10)
